Lorena,

You are correct, I did not request this document by name... I made a information request 8 months ago (see request at the bottom of this page dated June 10, 2016),.

So lets try the question again, and lets see if you can answer the question I asked, not the question you want to answer:

Why did it take you 8 months to send the document that contained the information that I requested.

Bruce Ecker

Lorena,

Can you explain why it took 8 months to get this document from you?

in the BID by parcel, what the assessment rate is, how it is determined and collected, and where the rates are codified... the PBID charter you provided did not make any mention of this information.

I would also like to see the text that allows the board to raise the assessment rate as was mentioned at a recent meeting. Is this a decision that only the board will be involved in or will the stakeholders have a voice in the increase in assessments?
